## **Airbus A330 Long Term Removable Mount LTRM Installation and Removal Manual**

Document no. LTRM Manual PM-A330-CA FO_Rev_0_14 DEC 2018	Revision 0	Date Dec 14, 2018	Page 2 (5)
---	---------------	----------------------	---------------

## Read Before Use

For optimal performance and maximum satisfaction with your PIVOT product, please follow this set of simple instructions to ensure proper deployment.

## Purpose

This document provides the necessary information for the correct placement and removal of the PIVOT LTRM Mount for the Airbus A330 series aircraft so to ensure its safe use and operation.

## Extent

This instruction manual is appropriate for all personnel involved in the placement and/or removal of PIVOT LTRM mount.

## Reference / Definitions

LTRM Long Term Removable Mount  
CA Captain's Side Mount (PM-A330-CA)  
FO First Officer's Side Mount (PM-A330-FO)

## Responsibility

PIVOT reserves the right to make changes to meet new specifications at any time without incurring any obligation to modify previously installed units. This manual is provided for informational and reference purposes only and is subject to change without notice. Service Bulletins may be issued separately and their effect on this manual will be made evident by reissue of the appropriate list of Service Bulletins. This document can only be changed by an authorized PIVOT engineer.

## Illustrations

All visuals in this document are examples being used for explanatory purposes and are not intended to be exact depictions of original parts as described in this document and are subject to change without notice.

## Overview

The PIVOT LTRM Mount consists of several parts:

- Contoured attachment plate
- High-deflection AMPS adapter with PPK-1 mounting plate

Total installation time for a shipset (CA and FO) should not exceed 10 minutes. Both the CA and FO LTRM products are mirrored and have the same installation/removal process. Installation does not require the use of any tools and can be realized by accomplishing the steps which are detailed on the following pages. You may also want to refer to the following:

## LTRM Installation Instructions

For either the CA or FO position, hold the appropriate PIVOT LTRM in one hand.

With your other hand, lift the chart spring clip on the window shroud.

With the chart spring clip raised, insert the top edge of the PIVOT LTRM into the window coving gap

Release the chart spring clip so that it rests on the edge of the cut-out area of the LTRM.

Press down and clip the lower edge of the LTRM onto the window coving.

---	----------------------	----------------------	---------------

The installation is complete.

## Attachment & Removal of PIVOT Case to LTRM

Refer to PIVOT Case User Guide for details.

### LTRM Removal Instructions

For either the CA or FO LTRM, using two hands, grasp the lower edge of the LTRM and pull inward away from the side wall to release the lower edge of the LTRM from the window coving.

With the lower edge free, use one hand lift the chart spring clip.

Using your other hand, lift the LTRM leading edge to enable the top edge to be lifted from the window coving.

Once it is separated from the coving, lift the top edge away from the window shade slot.

The removal is complete.
