

LS450 Leg Strap

Leg strap for extreme use conditions.

PA-LS450-1001

Item Code:

PA-LS450-1001

PRODUCT FEATURES

- Designed for use in extreme use conditions to meet ejection seat considerations up to 450 KEAS.
- Universal mounting plate is constructed of aircraft grade aluminum and robustly reinforced.
- Single direction mounting plate prevents rotation of the EFB and allows for installing/removing in only one direction.
- 1.5-inch GT Cobra Buckles.
- Nylon straps with reinforced stitching
- Custom fit to each pilot. Excess straps are to be cut to length after defining fit and orientation preference.
- Maximum strap length at full extension: 39.4-inches to fit the widest range of pilots and flight suits.
- Removable Sun Shade for covering the iPad screen (can be oriented to open left or right).
- Removable 15-degree wedge accessory provides viewing angle tilt and ergonomically conforms to the thigh.
